### Mitchells wish children a 'Hoppy Easter'

**Peter Roden**, Managing Director of Mitchell Glass, hands over the chocolate goodies to the Radio Borders bunny on Thursday 20th March. Mitchell Glass took part in the Radio Borders appeal to collect Easter eggs and gifts for sick and vulnerable children across the Borders. Peter said "As a family owned business from the Borders we are always keen to support any appeal which helps local people, especially children."

### Who You Gonna Call? Mitchell Glaziers!

### Welcome!

Spring is finally here (or is it?) - and it's at this time of year we start to give our homes some much needed TLC, after the long hard winter.

This is when we see little things that need repairing, such as **roof line** and **window units**, or when we start to imagine the possibilities of home improvements, like a **solid roof conservatory**. At **Mitchell Glass** we offer a wide range of products and services to ensure you get the most from your home.

Why not pop into our [showcentre](#) in Galashiels (behind Asda) to see what we could do for you this Spring?

#### *Mitchells Team*

### Windows for Everyone

At Mitchells, we understand that your windows should be as unique as your home. We strive to offer the widest range possible, giving you the best choice and ensuring we install your individually manufactured windows - just the way you want them.

#### **So what do we offer?**

##### *Timber Frame Windows*

For a more traditional feel to your home, it has to be timber frame windows. These windows offer the desired benefits of double glazing; heat retention and noise reduction, but are an exclusive alternative to their PVC counterparts. There is also the added benefit of the modern manufacturing techniques which means that you can have the traditional look without the traditional problems - NO MORE RATTLE.

##### *PVCu Windows*

To give your home a quick and effective make-over, with a wide range of sizes, accessories and colours, there is no comparison to PVCu windows. At **Mitchell Glass**, we always bring you the best in innovative design and our range of windows reflects this commitment.

A "first class job"  
(customer comment)

##### *Aluminium*

For those who are looking for a slimline look which allows light to flood in, the aluminium window is the one. For the look of the window the possibilities are numerous, with **over 100 RAL** colours and a satin or gloss finish, there is something to suit every home and every homeowner. And as if these are not reason enough, the aluminium window requires **no** maintenance.

#### **Enough said?**

In 1875 when Robert Mitchell set up shop in Hawick his aim was to provide customers with a wide range of services which would satisfy all their glazing needs. Times and tastes have changed since then and the business has too.

Now Mitchells are renowned for providing superior conservatories and double glazing but we don't forget the services which helped make Mitchells the success it is today. (As one of the longest established glazing companies in Scotland we don't make this claim lightly!)

We are still here to offer our customers a wide range of glazing services including broken windows, replacing failed double glazing units, made to measure mirrors, glass shelves and sliding wardrobe doors.

So, for all your glazing needs just give us a call on **0800 220 415**. We are here to help - **'That's guaranteed'!**

## What our Customers Say...

"Just a note to say how very much we appreciated the fantastic professional job of your workmen - from the minute they stepped in the house. Thank you."

Dorian and Vivian Wade, Selkirk

## Here Comes the Hot Summer Sun (we hope!)

At Mitchells we continually speak to our customers to find out if there are any issues which may hinder the pleasure of the new 'extra room' which they gain from the installation of a new conservatory. One issue which has come to our attention is temperature control, or put another way, how to keep the conservatory cool in summer and warm in winter?

Now we have found a new and innovative solution to this dilemma which is effective, offers great value and is available for polycarbonate roofs. It couldn't be simpler.

Call us now for details.

The solution which, unlike blinds, requires zero maintenance, is strong and durable, will give your conservatory a stunning new look and it will last. All you need is an integral solar shield, which can be simply installed into your existing roof by our master fitters. Available in a range of colours, the shield gives your conservatory an instant make-over too.

With 80% less of the sun's solar energy entering the roof, the new system is not only less than the cost of internal blinds, but far more effective too. Call the 'hotline' **0800 220 415** of details of how we can help you get the most from your conservatory. Don't worry if your conservatory has a glass roof as we also have a solution for you.

## Something New, Just for You

We've all been there at one time or another. We need more room or want something a bit different but moving home just isn't an option. Full scale extensions sound stressful and time consuming but a conservatory just doesn't quite hit the spot. What are your options?

You can rely on Mitchells to bring you the best of what's new to meet your needs and this time we have come up trumps. We are proud to announce the launch of our new range of **solid roof sunrooms**.

Used as a lounge, playroom, kitchen extension, study or dining room, in fact the possibilities are endless. The sunrooms have the functionality of a home extension with the ambience of a conservatory. With a huge range of choice in style, size, construction and finish, the new **Mitchells Solid Roof Sunroom** is the solution you have been looking for to make the most of your home.

Call now on **0800 220 415** to speak to one of our team.
