**Conservatory Building on a Whole New Level**

**Festive Steps**

**Focus on....Roof Lining**

**Get in Touch...**

Winter is now well and truly upon us, and our customers will really feel the benefit of the quality double glazing we have installed for them, sitting in their cosy living rooms listening to the howl of the wind and the beating of the rain!

The festive period is just around the corner and we would like to wish you a **Merry Christmas** and a very **Happy New Year**.

We'll be closing for the holidays to celebrate with family and friends at 5p.m. on 21st December, and re-opening in the New Year at 9a.m. on 7th January.

We look forward to seeing you at our [new showcentre](#) in Galashiels, in 2008.

*Mitchells Team*

### **Stylish Windows for Stylish Homeowners**

It seems that you cannot watch TV, listen to the radio or read a paper, without being told how important it is for your homes to have 'kerb appeal'.

Other than focusing on the garden it can feel that the choice available to make a difference to the exterior of your home is somewhat limited - until now!

**Mitchell Glass** can now supply and fit a fantastic range of PVCu windows, which come in a *range*

### **Conservatory Building on a Whole New Level**

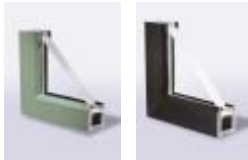

At **Mitchells** we love a challenge, and challenged we were recently by a customer in Selkirk.

Wanting to make the most of his first floor lounge, he asked **Mitchells** to design a conservatory which would enable him to make use of the space above his workshop and allow him to enjoy the beautiful views of the hills beyond.

of stylish colours.

If you are considering new windows why not pop into [our showcentre](#) in Galashiels and take a look at our range?

Indulge in the choice on offer, knowing that your windows can be as stylish as they are practical.

**Red, Green, White or Blue - Whatever the colour - it's up to you!**

At **Mitchells** we pride ourselves on offering the best choice when it comes to conservatories, windows and doors. And when it comes to doors we really excel. Just take a look at what's on offer, it's a colour wheel of choice. So no matter what you are looking for, be it wood grain, red, green, white, blue, we can supply and fit any door, just for you!

We also have a wide range of accessories for you to add a personal touch to your new door. And as all our doors are manufactured using an advanced technology, this means that they will not bow, warp or

Site of new workshop & conservatory

Under construction

We are sure you will agree the results are stunning. The Rosewood conservatory and decking area are a beautiful addition to the house, and it is practical too, with tilt'n'turn windows for easy cleaning and an easy-clean heat-reflective glass roof to make the most of the light and reduce noise from the road.

The finished conservatory.....and the spectacular views from it.

Why not pop into [our showcentre](#) in Currie Road, Galashiels and see what we can do for you?

**Festive step back in time for Mitchells**

The Christmas night out really gives the opportunity to chat to about the years gone by and to think about what the future may hold.

The staff from **Mitchell Glass** took their "retrospective look" a stage further this year when they held their night out at **Quins** in Market Street, Galashiels, as this was the location of their site when they opened their first large premises in Galashiels in 1960!

crack. All they require to look good is a wipe with a damp cloth!

## Question Time

**Will I be able to use my Mitchells conservatory all year round?**

Check the answer [here!](#)

## What our Customers Say...

Mrs McIver of Peebles who recently had secondary sliding windows fitted to the inside of her house:

*"I am delighted with the job and I would like to congratulate your firm on the very high standards of your installers. I would be happy to recommend your firm to friends."*

## Our Accreditations

(click each one for more info)

INVESTOR IN PEOPLE

A few of the current staff have been with the company so long that they can remember what it was like to work in the Market Street shop, with the fancy goods for sale and the paraffin stove "through the back" to heat up the pies.

Window manufacturing was a new venture at that time, and the windows were made upstairs, in what is now a Chinese restaurant.

Pictured above are Mitchells fitter Toby; Steve & Sylvia, owners of Quins; and Steve Scott, who started as an apprentice in 1978 in the Market Street building!

For Kevin Mania, Mitchells Installation Manager, it is a case of "keeping it all in the family," as his son now works at Quins!

## Focus on.....Roof Lining

If you are looking for a quick fix to improve the look of the exterior of your home, re-newing your roof line could be the ideal option. Just like the icing on a cake, the roof lining of your home is the subtle touch that really makes the difference.

**Mitchell Glass** not only supply the best in quality double glazing and conservatories, but we also offer our customers fantastic service for up-grading all roof lining, fascias and soffits.

The house pictured below had the roof linings completed before building the conservatory, to avoid the future need for complicated maintenance and upkeep above a glass roof.
